100% OF THE BEST STORIES IN 2024 ARE

Inclusive

"You're welcome here"

Who are you talking to?

Marketing 101: If you're talking to everyone, you're talking to no one.

Diversity: making sure everyone feels represented (gender, race/ethnicity, age, sexual orientation, etc)

Inclusion: making sure everyone feels welcome

You can make everyone feel welcome in your content without talking to everyone.

Things you need to know about the margins

ACKNOWLEDGE THAT YOUR READERSHIP IS MADE UP OF ALL KINDS OF PEOPLE

Be Open

Consider people who are not like you in your writing.

Be Aware

Be mindful of the language that you use.

Be Courteous

There's no shame in asking how they want to be represented. Ex: Do you know their preferred pronouns?

It's about the margins

"How husbands can support their pregnant wives"

What is wrong with this line?
How could we make it more inclusive?

MY BELIEF

Inclusive story telling begins with an inclusive reality.

How to be inauthentic

IN YOUR INCLUSIVITY

Your brand is actually exclusive

You target one kind of person, your brand is made up of a similar type of person, etc.

You don't walk to walk and talk the talk

It's not enough to go on social media and say happy _____ day.

You're writing from preconceived notions

Talk to the people you're trying to represent. Personal experiences.

Inclusive design

IS JUST GOOD MARKETING IN 2024

Inclusive design

Closed captions in video content

15% of the world has some form of disability. 71% just leave when content is non-inclusive.

Use an adequate font size.

Ensure text legible or stop putting text in images...

Limit emoji use.

Screen readers will read "Pile of poo" in your caption

Put hashtags and mentions at the end.

Punctuation marks are read by the screen reader

Avoid special characters.

Example in next slide

Inclusive design

Avoid special characters.

It looks "cool" but makes your content inaccessible to any who uses a screen reader.

Visually Inclusive

ALT TEXT HELPS PEOPLE IN THE MARGINS

Improves web accessibility

Displayed in the place of an image that can't load

Great for search engines

Tips for better Alt Text

Don't say "picture of" or "image of"

Go right into the description of the image.

Fewer than 125 characters

Screen reading tools will stop reading text after this point.

Be descriptive

Describe not only the subject but also the context of the image.

Use keywords sparingly

Keywords help search engines, alt text helps people.

PSA...

blacklivesmatter is pronounced by screen reader software something like "black live (the verb) smatter"

BlackLivesMatter is announced as you might expect: "black lives matter"
